

Suncoast Parkway 2 / SR Toll 589

FPID: 405270-1, -3 & -4

June 2016

Description:

The Suncoast Parkway 2 is a four-lane, limited access toll facility that extends the existing Suncoast Parkway northward approximately 27 miles through Hernando and Citrus Counties. This project will be implemented in two sections, the southern section and the northern section. The southern section begins at US 98 and ends at SR 44. This project will be delivered through a design-bid-build process proposed for FY 2017. The northern section, between SR 44 and US 19, is currently unfunded.

Benefits:

- Provides an alternative to US 19 for north-south trips in Hernando and Citrus Counties.
- Reduces travel time and emissions on the existing roadway network.
- Integrates a transportation network consisting of statewide and regionally significant transportation facilities.
- Improves mobility between Citrus County and the Tampa Bay Region.

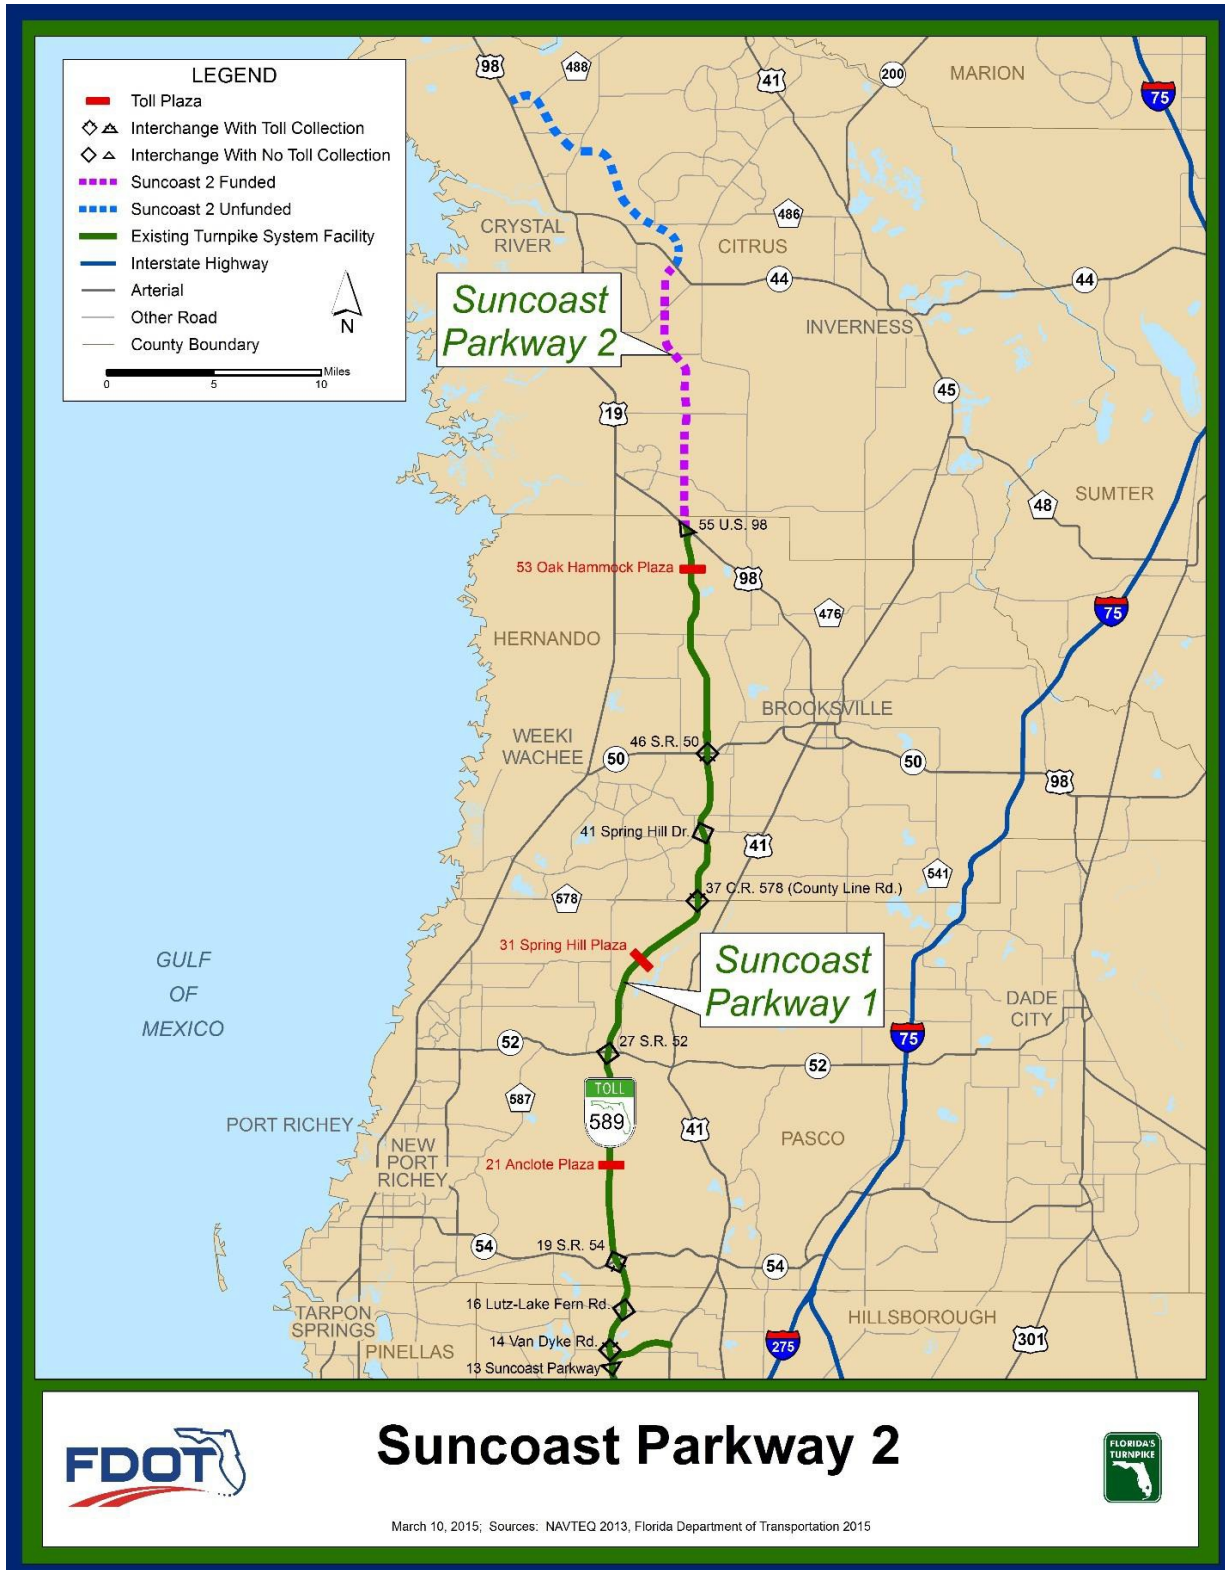

Status:

- **Permitting** – Currently underway with an anticipated completion in the Fall of 2016.
- **Right of Way Acquisition** – Right of Way efforts are underway.
- **Construction** – Programmed in the Work Program for FY 2017.
- **Multi-Use Trail** – FTE is coordinating with Hernando and Citrus Counties for implementation of the trail.
- **Public Hearing** – Public Hearing was held on June 25, 2015.
