

SAMPLE PAVEMENT DESIGN REPORT

TABLE OF CONTENTS

SECTIONS:

- A. Executive Summary
 - a. Existing Pavement Conditions
 - b. Traffic Data Analysis
 - c. Summary Design Criteria
 - d. Typical Section Analysis
 - e. Pavement Recommendations
 - i. Milling and Resurfacing
 - ii. Full Depth
 - iii. Cross Slope Evaluation and Method of Correction
 - iv. Overbuild Recommendations

- B. Pavement Design Calculations
- C. Pavement Layering Details

APPENDICIES:

- 1. Project Location Map
- 2. Traffic Data
- 3. Resilient Modulus Values (M_r) – FWD or LBR
- 4. Straight Line Diagrams
- 5. Proposed Typical Section Package
- 6. Pavement Coring and Evaluation Report
- 7. GPR Data
- 8. Profilograph Cross Slope Data
- 9. Base Clearance Calculations
- 10. Quality Control Checklist
- 11. List of Reference from Flexible Pavement Design Manual
