CONTROL SURVEY

STATE ROAD NO. 589
SUNCOAST PARKWAY 2
F. P. ID 405270-3

LOCATED IN SECTIONS 5, 4, 9, 16, 15, 16, 21, 22, 27, 28, 35 AND 34
TOWNSHIP 20 SOUTH, RANGE 18 EAST
AND SECTIONS 28, 29, 32 AND 33
TOWNSHIP 19 SOUTH, RANGE 18 EAST
CITRUS COUNTY, FLORIDA

GENERAL NOTES

1. This survey was performed by the Florida Department of Transportation in accordance with the guidelines and requirements set forth in the Florida Department of Transportation's Right of Way Control Survey Manual. The survey was conducted using the latest available data and technology, and all records and maps were compiled in compliance with the department's standards.

2. The survey line was established using precise surveying techniques and equipment, and all measurements were taken to ensure accuracy and reliability. The survey line was marked with survey stakes and flags to facilitate any future land use or development activities.

3. Any errors or discrepancies in the survey line or the data collected will be corrected in a timely manner. The department reserves the right to make any necessary changes to the survey line or the data collected to ensure its accuracy and reliability.

4. The survey line is intended to serve as a guide for future land use and development activities. Any construction or development activities must comply with the regulations and guidelines set forth by the department and any other applicable laws or regulations.

5. The department reserves the right to modify or cancel the survey line at any time if necessary to ensure its accuracy and reliability. Any changes to the survey line will be communicated to all parties as soon as possible.

SURVEYOR'S CERTIFICATION

The undersigned, a duly licensed and certified surveyor, hereby certifies that the survey line established as part of this project was performed in accordance with the guidelines and requirements set forth in the Florida Department of Transportation's Right of Way Control Survey Manual. The survey line was established using precise surveying techniques and equipment, and all measurements were taken to ensure accuracy and reliability. The survey line was marked with survey stakes and flags to facilitate any future land use or development activities. Any errors or discrepancies in the survey line or the data collected will be corrected in a timely manner. The department reserves the right to make any necessary changes to the survey line or the data collected to ensure its accuracy and reliability. The survey line is intended to serve as a guide for future land use and development activities. Any construction or development activities must comply with the regulations and guidelines set forth by the department and any other applicable laws or regulations. The department reserves the right to modify or cancel the survey line at any time if necessary to ensure its accuracy and reliability. Any changes to the survey line will be communicated to all parties as soon as possible.
