Central Florida Weekly Lane Closures and Work Zone Advisory

OCOE, FL (January 3, 2008) — Florida's Turnpike announces lane closures and work zone information for construction and maintenance projects in Central Florida **beginning Sunday, January 6, 2008.**

Florida's Turnpike strives to maintain traffic flow in work zones; however, motorists may encounter heavier traffic near construction sites. Motorists should drive with caution through the work zones, and adhere to posted detour signs and speed limits. Speeding fines double in construction zones when workers are present. **All paving-related lane closures are dependent on weather conditions; temperatures below 60 degrees or rain may delay or cancel paving operations.**

Turnpike Mainline

OSCEOLA COUNTY

STATE ROAD 60 WIDENING PROJECT (MILEPOSTS 192-194)

- Turnpike motorists should expect single, outside lane closures, both north- and southbound, 7 a.m. to 7 p.m., Monday through Thursday, and 7 a.m. to 12 p.m. (noon), on Fridays until further notice

PROJECT DESCRIPTION: The Florida Department of Transportation District 4 is widening State Road 60 through Osceola County, including reconstruction of the bridge over the Turnpike near Yeehaw Junction.

ROADWAY RESURFACING PROJECT (MILEPOSTS 198-207 and 227-249)

- Turnpike motorists should expect single lane closures, both north- and southbound, 8 a.m. to 5 p.m., Monday, January 7 to Thursday, January 10, 10 a.m. to 3 p.m., Friday, January 11, and 7 a.m. to 10 p.m., Saturday, January 12.
- Motorists should expect single lane closures, both north- and southbound, 10 p.m. to 6 a.m., Monday, January 7 to Thursday, January 10

PROJECT DESCRIPTION: This \$29 million resurfacing project includes milling and resurfacing portions of the roadway including exit ramps and toll plaza lanes, and widening some roadway shoulders. The project also includes the installation of guardrail.

The resurfacing project is scheduled for completion in June 2008.

ORANGE COUNTY

TURNPIKE WIDENING PROJECT—BEACHLINE TO I-4 (MILEPOSTS 254-259)

- Single lane closures are also to be expected on US 17-92/441 (Orange Blossom Trail), at the Turnpike between Land Street Rd and Consulate Drive from 10 p.m. to 6 a.m.
- Motorists traveling on Florida's Turnpike between mileposts 254 and 259 should expect delays due to intermittent, single lane closures, both north- and southbound, Wednesday and Thursday, during the overnight hours of 10 p.m. and 6 a.m.
- Motorists should be alert for construction vehicles at bridgework locations along the project.

PROJECT DESCRIPTION: This \$77.5 million project adds two lanes in each direction to the Turnpike between Toll 528 and Interstate 4. Reconstruction and widening of the Shingle Creek Bridge, the overpasses at Toll 528, Orange Blossom Trail (US 17/92/441), Oak Ridge Road, Sand Lake Road and the Interstate 4 ramps is also included in this project. This Turnpike widening project is scheduled to be complete in September 2008. The project includes setting barrier wall and installing asphalt to accommodate temporary travel lanes during construction as well as activities associated with demolition work and new construction on Shingle Creek Bridge. Construction activities will occur behind barrier wall. There are no lane closures currently scheduled during the day. Motorists should exercise caution while traveling in the area, and watch for construction vehicles entering and exiting the work zone.

TURNPIKE WIDENING PROJECT—I-4 TO GOTHA ROAD (MILEPOSTS 259-265)

- Currently, most work is concentrated between the Kirkman Road overpass and the Turkey Lake Service Plaza.
- Motorists should be alert for overnight, outside lane closures northbound between Kirkman Road and the Turkey Lake Service Plaza, 10 p.m. to 5 a.m., Sunday, January 6, and 9 p.m. to 5 a.m., Monday through Thursday, January 8 to January 11.
- Be alert for lane shifts in both directions between Interstate 4 and the Turkey Lake Service Plaza.
- Motorists on Kirkman Road should be alert for lane shifts. Crews are placing barrier wall and be shifting traffic lanes for work beginning in the median as part of the bridge widening phase of construction.
- Turnpike motorists near, both north- and southbound should be alert for traffic pacing operations near Gotha Road, as crews begin demolition of the existing bridge. Traffic will be maintained on Gotha Road during the reconstruction process.

PROJECT DESCRIPTION: This \$128.6 million project adds two lanes in each direction between Interstate 4 and the SR 408 Interchange. Construction includes widening the existing bridges over Interstate 4 and Apopka-Vineland Road, and replacing the Kirkman Road and Gotha Road bridges over the Turnpike. Additionally, improvements will be made at the Interstate 4 and SR 408 (East-West Expressway) interchanges. This project is scheduled to be complete in August 2010. Beachline West Expressway

BEE LINE WEST TOLL PLAZA RECONSTRUCTION, ITS INSTALLATION PROJECT AND ROADWAY RESURFACING (Mileposts 0-6)

- Motorists should be alert for east- and westbound Beachline inside lane closures from Interstate 4 to milepost 4 for median guardrail and sod installation, 10 p.m. to 6 a.m., Sunday night, January 6 to Friday morning, January 11.

- Due to winter weather conditions, the schedule for placement of friction course on the ramps has been affected. Motorists should pay attention to variable message signs along the highway for updates on ramp status. The *proposed* schedule is as follows:
 - A full ramp closure of the westbound Beachline exit onto Landstreet and the entrance to the toll plaza, 9 p.m. to 6 a.m., Sunday, January 6
 - A full ramp closure at the John Young Parkway on-ramp to the eastbound Beachline, 9 p.m. to 6 a.m., Monday, January 8
 - A full ramp closure of the entrance ramp from the Turnpike toll plaza to Orange Blossom Trail southbound, 9 p.m. to 6 a.m., Tuesday, January 8
 - A full ramp closure from the Turnpike to the toll plaza on-ramp at the eastbound Beachline, 9 p.m. to 6 a.m., Wednesday, January 9
 - A full ramp closure from northbound Orange Blossom Trail to the Turnpike, 9 p.m. to 6 a.m., Thursday, January 10

DESCRIPTION: Florida's Turnpike Enterprise has begun a \$10 million project to reconstruct the Bee Line West Mainline Toll Plaza near Milepost 6, part of a series of enhancements scheduled to begin within the next two years.

The current project consists of the demolition and reconstruction of the existing mainline plaza with major capacity improvements and additional lanes. Upon completion in the spring of 2009, the plaza will feature two SunPass-only express lanes in each direction, with the capacity to add an additional lane when the Beachline is widened to three lanes in each direction. SunPass customers will be able to travel at highway speed in the express lanes.

Included in the toll plaza improvements is the construction of four mixed-use lanes to provide additional lanes for cash customers.

Additionally, the Turnpike is resurfacing the Beachline between Interstate 4 and the Turnpike mainline (milepost 5). This project includes milling and repaving the ramps at International Drive, Orangewood Boulevard and John Young Parkway.

Regional Projects

POLK COUNTY

TOLL ROAD 570—THE POLK PARKWAY

- Motorists should be alert for daily, single lane closures, both east- and westbound, between Interstate 4 (Milepost 0) and the Western Mainline Toll Plaza (Milepost 8)) between 9 a.m. and 5 p.m. Crews have begun final placement of final friction course. This is a moving operation and motorists should be alert for crews moving traffic control devices as work.
- Intermittent, single-lane closures may be necessary at some locations for friction course corrections.
- Be alert for lane closures, both east- and westbound near Harden Boulevard for the installation of a traffic monitoring device on January 7.

PROJECT DESCRIPTION: Work is nearing completion on this \$22 million resurfacing project. The project includes milling and resurfacing portions of the roadway including the ramps and toll plaza lanes, reconstruction of the roadway base in some areas, and widening some roadway shoulders. The project also includes the installation of median guardrail and the construction of emergency vehicle median turnarounds. Most work occurs Monday through Friday during daylight hours; however, occasional work on Saturdays may be necessary. This project is scheduled for completion in February 2008. For more information, visit <http://www.polkparkwayconstruction.com>.

Florida's Turnpike Enterprise, part of the Florida Department of Transportation, oversees a 460-mile system of limited-access toll highways: Florida's Turnpike, extending north from Homestead in Miami-Dade County to Wildwood in Sumter County; the Seminole Expressway and Southern Connector (Toll 417) in Seminole, Orange and Osceola counties; the Beachline Expressway West (Toll 528) in Orange County; the Polk Parkway (Toll 570) in Polk County; the Veterans Expressway and Suncoast Parkway in Hillsborough, Pasco and Hernando counties (Toll 589); the Sawgrass Expressway (Toll 869) in Broward County; and the Daniel Webster Western Beltway (Toll 429) in Orange and Osceola Counties.

SunPass is the Florida Department of Transportation's innovative Prepaid Toll Program. SunPass may be used on all Florida's toll roads and most toll bridges. For information on SunPass®, call 1-888-TOLL-FLA (865-5352) or visit <http://www.sunpass.com>.

Travelers on the Florida's Turnpike system of roads may view real-time traffic information by visiting our website at <http://www.floridasturnpike.com>. While traveling in the Orlando, South Florida and Tampa Bay regions, motorists should dial 511 for real-time regional traffic information on the Turnpike and other major roads. This information system is voice-activated; motorists should speak the name of the road they wish to use. They may also visit <http://www.fl511.com> for information. This free service of the Florida Department of Transportation is available 24/7.
