Central Florida Weekly Lane Closures and Work Zone Advisory

OCOEE, FL (January 31, 2008) — Florida's Turnpike announces lane closures and work zone information for construction and maintenance projects in Central Florida **beginning Sunday, February 2, 2008.**

Florida's Turnpike strives to maintain traffic flow in work zones; however, motorists may encounter heavier traffic near construction sites. Motorists should drive with caution through the work zones, and adhere to posted detour signs and speed limits. Speeding fines double in construction zones when workers are present. **All paving-related lane closures are dependent on weather conditions; temperatures below 60 degrees or rain may delay or cancel paving operations.**

Turnpike Mainline

OSCEOLA COUNTY

STATE ROAD 60 WIDENING PROJECT (MILEPOSTS 192-194)

- Turnpike motorists should expect single, outside lane closures, both north- and southbound, 7 a.m. to 7 p.m., Monday through Thursday, and 7 a.m. to 12 p.m. (noon), on Fridays until further notice
- Motorists should be alert for a rolling traffic pacing operation, 8 p.m. to 6 a.m., Monday through Thursday, February 4-7 for demolition of the old SR 60 bridge and to accommodate construction of the new westbound SR 60 bridge.

PROJECT DESCRIPTION: The Florida Department of Transportation District 4 is widening State Road 60 through Osceola County, including reconstruction of the bridge over the Turnpike near Yeehaw Junction.

ROADWAY RESURFACING PROJECT (MILEPOSTS 198-207 and 227-249)

- Turnpike motorists should expect single lane closures, both north- and southbound, 8 a.m. to 5 p.m., Monday, February 4 to Thursday, February 7, 10 a.m. to 3 p.m., Friday, February 8, and 7 a.m. to 10 p.m., Saturday, February 9.
- Motorists should expect single lane closures, both north- and southbound, 10 p.m. to 6 a.m., Sunday, February 3, and 8 p.m. to 6 a.m., Monday, February 4 to Thursday, February 7
- Motorists should expect continuous single lane closures, beginning at noon, Saturday, February 9 and extending to noon on Sunday, February 10. Crews are pouring concrete barrier walls at the Simpson Road overpass.

PROJECT DESCRIPTION: This \$29 million resurfacing project includes milling and resurfacing portions of the roadway including exit ramps and toll plaza lanes, and widening some roadway shoulders. The project also includes the installation of guardrail.

The resurfacing project is scheduled for completion in June 2008.

ORANGE COUNTY

TURNPIKE WIDENING PROJECT — BEACHLINE TO INTERSTATE 4 (MILEPOSTS 254-259)

- Single lane closures are also to be expected on US 17-92/441 (Orange Blossom Trail), at the Turnpike between Land Street Rd and Consulate Drive from 10 p.m. to 6 a.m.
- Motorists traveling on Florida's Turnpike between mileposts 254 and 259 should expect delays due to intermittent, single lane closures, both north-and southbound, Wednesday and Thursday, during the overnight hours of 10 p.m. and 6 a.m.
- Motorists should be alert for construction vehicles at bridgework locations along the project.

PROJECT DESCRIPTION: This \$77.5 million project adds two lanes in each direction to the Turnpike between Toll 528 and Interstate 4. Reconstruction and widening of the Shingle Creek Bridge, the overpasses at Toll 528, Orange Blossom Trail (US 17/92/441), Oak Ridge Road, Sand Lake Road and the Interstate 4 ramps is also included in this project. This Turnpike widening project is scheduled to be complete in September 2008. The project includes setting barrier wall and installing asphalt to accommodate temporary travel lanes during construction as well as activities associated with demolition work and new construction on Shingle Creek Bridge. Construction activities will occur behind barrier wall. There are no lane closures currently scheduled during the day. Motorists should exercise caution while traveling in the area, and watch for construction vehicles entering and exiting the work zone.

TURNPIKE WIDENING PROJECT — INTERSTATE 4 TO GOTHA ROAD (MILEPOSTS 259-265)

- Currently, most work is concentrated between the Kirkman Road overpass and the Turkey Lake Service Plaza.
- Motorists should be alert for overnight, outside lane closures northbound between Kirkman Road and the Turkey Lake Service Plaza, 10 p.m. to 5 a.m., Sunday, and 9 p.m. to 5 a.m., Monday through Thursday.
- Be alert for lane shifts in both directions between Interstate 4 and the Turkey Lake Service Plaza.
- Motorists on Kirkman Road should be alert for lane shifts. Crews are placing barrier wall and be shifting traffic lanes for work beginning in the median as part of the bridge widening phase of construction.
- Turnpike motorists near, both north- and southbound should be alert for traffic pacing operations near Gotha Road, as crews begin demolition of the existing bridge. Traffic will be maintained on Gotha Road during the reconstruction process. Watch for the flagging operation.

PROJECT DESCRIPTION: This \$128.6 million project adds two lanes in each direction between Interstate 4 and the SR 408 Interchange. Construction includes widening the existing bridges over Interstate 4 and Apopka-Vineland Road, and replacing the Kirkman Road and Gotha Road bridges over the Turnpike. Additionally, improvements will be made at the Interstate 4 and SR 408 (East-West Expressway) interchanges. This project is scheduled to be complete in August 2010. Click here for a map of soundwall installation locations:

TURNPIKE WIDENING PROJECT-STATE ROAD 408 TO BEULAH ROAD (MILEPOSTS 265-270)

- Single lane closures, 10 p.m. to 5 a.m., Sunday, February 3 through Friday, February 15 The contractor is installing temporary asphalt and barrier wall to accommodate construction. The closures will begin northbound; when complete, the operation will move to the southbound lanes.

- Motorists should be alert for construction workers in the area. Daytime work includes clearing and grubbing, installation of the silt fence and excavation of a new pond east of Maguire Road on the northbound side of the Turnpike.

PROJECT DESCRIPTION: This \$68.8 million project adds two lanes in each direction between the SR 408 Interchange and Beulah Road. Construction includes replacing the ramp bridge at the Ocoee Exit 267B and the Turnpike bridge over Beulah Road. Additionally, improvements will be made at the SR 429 interchange. Auxiliary lanes will be maintained between SR 408 and SR 429, with the final roadway section becoming 10 lanes. This project is scheduled for completion in August 2010.

Beachline West Expressway

BEE LINE WEST TOLL PLAZA RECONSTRUCTION, ITS INSTALLATION PROJECT AND ROADWAY RESURFACING (Mileposts 0-6)

- Motorists should be alert for periodic inside and outside lane closures, both east- and westbound on the Beachline between the Turnpike and Interstate 4 for sod installation and other median work, 9 p.m. to 6 a.m., Sunday, February 2 to Friday, February 8.
- Expect outside, single lane closures, both east- and westbound between mileposts 0 (Interstate 4) and the Turnpike (Milepost 4) to accommodate installation of the Travel Time System structures, 7 p.m. to 5:30 a.m., Friday, Tuesday, February 5 to Friday, February 8.
- Southbound Consulate Drive will be closed, 12:30 a.m. to 4:30 a.m., Thursday, February 7 for installation of a concrete pole along the westbound Beachline Expressway. Detour provided below.

PROJECT DESCRIPTION: Florida's Turnpike Enterprise has begun a \$10 million project to reconstruct the Bee Line West Mainline Toll Plaza near Milepost 6, part of a series of enhancements scheduled to begin within the next two years.

The current project consists of the demolition and reconstruction of the existing mainline plaza with major capacity improvements and additional lanes. Upon completion in the spring of 2009, the plaza will feature two SunPass-only express lanes in each direction, with the capacity to add an additional lane when the Beachline is widened to three lanes in each direction SunPass customers will be able to travel at highway speed in the express lanes.

Included in the toll plaza improvements is the construction of four mixed-use lanes to provide additional lanes for cash customers.

Additionally, the Turnpike is resurfacing the Beachline between Interstate 4 and the Turnpike mainline (milepost 5). This project includes milling and repaving the ramps at International Drive, Orangewood Boulevard and John Young Parkway.

Regional Projects

POLK COUNTY

ORANGE AND OSCEOLA COUNTIES

Daniel Webster Western Beltway

LANDSCAPING INSTALLATION PROJECT (Mileposts 0-11)

- Motorists should be alert for outside single lane closures, both north- and southbound between mileposts 6-8 (US 192 to Hartzog Road/Western Way, 7 a.m. to 5 p.m., Monday through Friday until further notice.

PROJECT DESCRIPTION: This \$2 million projects adds landscaping to the Western Beltway between Interstate 4 and Seidel Road. The project is scheduled for completion in December 2008.

POLK COUNTY

TOLL ROAD 570—THE POLK PARKWAY

- Expect lane closures both east- and westbound between Interstate 4 and the Western Mainline Toll Plaza to accommodate bridge deck cleaning and lane striping activities.
- Expect ramp closures at Interstate 4 next Wednesday and Thursday. Traffic will be toured off the parkway at Clarke Road, onto County Road 542 and back to Interstate 4 via County Line Road. Anticipated closures are as follows:
 - Expect ramp closures on the westbound Polk Parkway ramp to westbound Interstate 4, Wednesday and Thursday, February 6-7 for resurfacing work.
 - Expect the westbound Polk Parkway ramp to eastbound Interstate 4 to be closed Wednesday, February 6 for bridge deck and striping work.

PROJECT DESCRIPTION: Work is nearing completion on this \$22 million resurfacing project. The project includes milling and resurfacing portions of the roadway including the ramps and toll plaza lanes, reconstruction of the roadway base in some areas, and widening some roadway shoulders. The project also includes the installation of median guardrail and the construction of emergency vehicle median turnarounds. Most work occurs Monday through Friday during daylight hours; however, occasional work on Saturdays may be necessary. This project is scheduled for completion in February 2008.
