New shoulders will be constructed on the ramps at the following interchanges: Campbell Drive, Biscayne Drive, Tallahassee Road and Allapattah Road. The existing paved shoulders will be widened at the ramps to U.S. 1 and to Biscayne Drive. One project is scheduled for completion by the end of 2009; the other is scheduled for completion in the summer of 2010. Combined cost: \$14.4 million.

TURNPIKE – SOUTH FLORIDA INTELLIGENT TRANSPORTATION SYSTEMS (ITS) PROJECT

- One of two northbound lanes on Florida's Turnpike will be closed as needed north and south of the Biscayne Drive interchange (Exit 5) between 9 a.m. and 4 p.m. Monday, Feb. 9, through Friday, Feb. 13.

PROJECT DESCRIPTION: Data collection equipment, including cameras, vehicle detectors and travel-time detectors, along with two electronic, dynamic message signs (DMS) are being installed on Florida's Turnpike from Milepost 0 to Milepost 117

and from Milepost 0X to 4X. The equipment will help the Turnpike's Traffic Management Center identify and manage traffic incidents. The project is scheduled for completion in March 2009. Approximate project cost: \$20.6 million.

TURNPIKE – 'SMART HIGHWAYS' PROJECT

- No lane closures this week.

PROJECT DESCRIPTION: A total of 36 electronic, dynamic message signs (DMS) are being installed in the southern portion of the Turnpike. This includes 16 signs on arterial roads, 11 signs at toll plazas and 9 signs along Florida's Turnpike. The project is scheduled for completion in March 2009. Approximate project cost: \$11.7 million.

OKEECHOBEE TOLL PLAZA OPEN ROAD TOLLING AND NW 74TH STREET INTERCHANGE (MILEPOST 32)

Cash-paying motorists will pull off the highway onto ramps with traditional tollbooths and then merge back onto the travel lanes. A new SunPass-only interchange is under construction at Northwest 74th Street. Construction began in January 2007 and is scheduled for completion in late 2009/early 2010.
