

FY 2010 Highlights

**July
2009**

Effective July 1, 2009, the Turnpike is authorized by the Florida Legislature to fix, adjust, charge and collect such amounts needed to recover the cost associated with various toll collection and payment methods, including video billing.

A new toll free interchange on the Suncoast Parkway at Lutz-Lake Fern Road opened to traffic.

**August
2009**

**April
2010**

A new SunPass-only interchange on the HEFT at NW 74th Street opened to traffic.

SunPass transponder sales reached the five million mark, which makes Florida's Turnpike the agency with the largest number of transponders sold in the nation.

**May
2010**

**November
2010**

Construction commenced to renovate the service plazas located along the Turnpike Mainline. All plazas are expected to be complete by FY 2015.
