

Construction at Lake Worth Interchange (Exit 93)

Project Location: Florida's Turnpike at Lake Worth Interchange (Exit 93).

Purpose of Project: Alleviate congestion at both the Lake Worth Toll Plaza and at Lake Worth Road near the Turnpike.

Current Interchange Description: The Lake Worth Interchange is a trumpet configuration. A trumpet configuration means both the northbound and southbound ramps lead in and out of one toll plaza. The current toll plaza is located on the northbound side of the Turnpike at Lake Worth Road (see diagram).

Future Interchange Description:

The southbound entry and exit will be built at the southwest corner of the interchange (see diagram). The northbound entry and exit will remain in its current location.

Construction Timeline: fall 2009 to summer 2011

Affects on Traffic:

During nighttime off-peak hours motorists should expect lane closures on both Lake Worth Road and on the Turnpike in the vicinity of the interchange.

For 24 hours a day up-to-date traffic information motorists should call 511.
